Subject: Draft email for Internal Review Team Participation

Monica, Dana, and Lois:

Here's a very rough draft email re: the internal review/study team intended for the regional managers who are providing staff for the internal review/study team for your review. It is very basic as I don't have many of the pertinent details, such as the names, if a team leader will be designated, senior manager sending it (Mathy?), etc. I haven't attached the latest draft charge as it isn't final.

Thank you for your willingness and responsiveness on such short notice to provide experienced, knowledgeable staff to participate on a small team to conduct an accelerated internal review of the 8/5/2015 Gold King Mine mine wastewater release. As we have discussed members will implement the charge to the team (see attached), including a visit to the site and interviews with appropriate representatives on August 17-18. OSWER will prepare and fund travel authorizations regional participants' travel to Colorado. Team members include:

Deliberative Process/Ex. 5

Please have your staff contact Jennifer Hemsley (?) at 703-603 _____ to prepare travel

authorizations and _____ if you have any other questions.

Schatzi Fitz-James, on detail

EPA, Office of Superfund Remediation and Technology Innovation (OSRTI)
